Get a medical license in Africa

Hello, Doctor students in India who have completed their MBBS training from a Medical college outside India but have not cleared FMGE /NEXT(Foreign Medical Graduate Examination)

Our company has worked out a bilateral agreement with a reputed company in Africa to offer a program that enables people who have an MBBS degree to take the licensing exam in Africa and become a junior doctor after one year of housemanship, eligible to practice in any Government or Private Hospital. As a Junior Doctor, you can work in most countries in Africa or move to countries like the UK/USA, take a licensing exam and practice.

During one year housemanship as a provisional doctor, you can earn a minimum of USD 200 per month at the teaching hospital you are attached to and earn extra by practising at other hospitals as visiting doctors, which is enough to cover your living costs.

After completing housemanship, you become Junior Doctors and can earn a minimum of USD 1200 per month practising at Govt/Private Hospitals. You can earn more if your speciality/skills are in demand.

Costs of the program

1. Licensing Exam registration cost: USD 350 appx (One-time payment in India)
2. Investor Visa & One way International & local Ticket USD 1100 appx (One-time payment in India)
3. Exam training cost for 2 months: USD 500 (One-time payment payable in Nigeria)
4. Per person Rent, utilities & food cost for 2 months for taking the exam for a furnished & serviced 3 bedroom apartment housing 6 persons: 700 USD (payable monthly in Nigeria) appx
5. Consulting & coordination cost: INR 1,30,000/-   (INR 30,000 for registration balance INR 1,00,000 before departure from India)
6. Consulting & Coordination cost in Nigeria USD 1000.00 payable in two parts of USD 500 each.

   After the exam

1. One year resident permit and visa: USD 2500 (Payable in Nigeria)
2. Per month rent & food cost   : USD 350 per month Yearly 4200 appx

Remarks: Candidates wishing to join this program should have financial arrangements of about USD 8500 in total and carry/make arrangements for USD 4500 for training, 2 months stay before the exam, Visa and resident permit cost.

About the program

This is an Africa-based program wherein the candidate has not been able to clear the FMGE in India and is not able to practise. Our company in bilateral cooperation with a reputed company in Africa with that country's Government support is offering this program wherein such aspirants can take a easier licensing medical council exam in Africa.

You can register for the exam online after a third-party degree verification (also online). After registering travel to Africa to take a short training course that will help you to clear the exam. You become a provisional doctor and complete a year of housemanship in Africa to become a Junior Doctor.

Africa is a great destination for new medical professionals as there is a severe scarcity of medical professionals. Remunerations for a trained doctor are comparable to Western countries, after 2-3 years of practice, if the professional has the skills needed for Africa. It's also easy to move to the UK/US as moving to the West is very popular.

Initially, a move to Africa can be challenging which is where we come in. We arrange all the logistics of movement, furnished and serviced accommodation at the destination and utilities. We also give out do's and don'ts so your stay can be as comfortable as possible and take care of Visa issues, coordinate with Hospitals for housemanship appointments.

Earnings during program & afterwards

During Housemanship (After clearing the exam)

1. Salary at Govt Hospital as provisional doctor: USD 200 pm (Minimum) you can earn more at Private clinics/ Hospitals.
2. Other income as visiting doctor/ Teaching assignment at Nursing college : USD 50 to USD 75 per visit total per month appx USD 300. Total earning per month USD 500.

After 1 year of completing Housemanship as Junior Doctor (Resident permit/ Visa fee to be borne by employing institution) in 1st Year

1. Salary Govt Hospital : USD 500 minimum per month
2. Other income as visiting doctor approximately USD 100 Dollars per visit and between USD 300 to USD 500 per procedure depending on speciality/skills) : USD 700- USD 1000 per month
3. Total : USD 1200-USD 1500 (Minimum)
